INDEPENDENT.

CHINA AND THE UNITED STATES.

The National Publishing Company, of Cincinnati, have placed the reading public under obligations for issuing many excellent publications, but in none have they succeeded more in this respect than in placing in the form of an elegant, large book under the above title, before the people. Reference has been made to the work before in our columns, and a cursory examination of its contents confirms us in the belief that the representations there made in its behalf are not overdrawn. That wonderful people, the Chinese, whose manners and customs have from time immemorial been an enigma to the outside world, has been studied by Mr. Speer, the author of the work, who had ample opportunities for taking an inside view of their singularities, and in a plain, unpretending manner he tells us how these people live when at home, giving their peculiarities in detail. No one who takes up this book can fail to be interested in what he reads concerning the every day lives of this hitherto secluded nation, which embraces numerically one fourth the population of the globe. As the Chinese people are coming here in large numbers, it is a propitious time to diffuse all the information possible among our people concerning them, and for this reason the book is a timely one. Singular as they are in their habits, and barbarians as we chose to call them, they may be able to teach us something of advantage; while, on the other hand, our people can instruct them in almost everything that is new and useful—for their ways are old and stereopyted and need modernizing. However, in the matter of economy in the way of living, their customs are extremely simple, and without following their example literally, a large number of the American people might profit by checking their extravagances and be just a little more Chinese in this particular. The book is finely illustrated—sold only by agents.

N. Y. TRIBUNE.—Since the opening of the war between France and Prussia, the Tribune has evinced unusual enterprise in furnishing the very latest authentic news of every day's, and often every hour's doings. No pains or expense was spared to have correspondents at every important point, who imparted all the movements of each party in the conflict, and columns and pages of that paper have been filled with special telegrams which some days cost over one thousand dollars. This enterprising spirit of the publishers has been keenly appreciated by the American people, and they have been liberally compensated for this being among the very first to detail the terrible conflicts of strife so fiercely waged between the contending parties.

JUST MARRIED.

On Tuesday afternoon, a couple of young ladies and gentlemen put up at Montgomery Hall, in this village having just arrived on the train from the west. Evidently, from appearance, they had not traveled much—probably had never been to London, Paris, or Fort Plain before. However, immediately upon their arrival, one of the gentlemen stepped up to Brown and said:

'Can you give us a room with two beds in it?'

'Certainly,' said Brown, 'will you have it now, or wait until evening?'

'Oh!' said the individual, confidentially, 'we want it right off—we've just been married!'

Although Brown is a bachelor, he was not slow to comprehend the situation, and immediately conducted the happy quarto to a room with two beds in it, and chuckling to himself, returned to the office. In a few minutes; however, the individual again made his appearance and said:

'See here,—sorry to trouble you, but the girls have been talking the matter over, and they think we had better have separate rooms with a bed in each.'

Brown thought so, too, and quickly made the change to the entire satisfaction of the impatient newly married pairs, and we suppose the verdant individual has found out the necessity, ere this, of going to the expense of more than one room for two newly wedded couple.—Fort Plain Register.

Selfishness, by its own law, not only moves in simple circles, but is short-lived. What men do for themselves is soon expended, and is soon forgotten. Only that part of a man's life which includes other men's good, and especially the public good, is likely to be felt long after he himself is dead.

A SONG OF HEAVEN.

BY MISS KATE E. P. HILL.

I would sing you a song of heaven,
If my soul could chant the hymn—
I would sing of its skies, whose gorgeous dies
Would make our own grow dim.

I would sing of its mountains bathed in light
That never will fade away—
Of its murmering breeze, through whispering trees,
That never can know decay.

I would sing of its birds, that trill strange words,
With a mystery in their flow,
Till the scented airs grow holy with prayers.
That none but they can know.

I would sing to you, of the violet blue,
That watches the bending sky,
But droops its head, when it hears the tread
Of an angel, passing by.

But my soul is mute, like a tuneless lute,
That has been forsaken long,
Its pulses thrill, but its voice is still;
And I cannot sing the song.

Sweet land! I have dreamed of thee,
When the summer moonlight fell
In silvery showers, on the nestling flowers,
Asleep in the greenwood dell.

And I awoke, when the vision broke,
With a sob on heart, and brain;
That I should stray, from the shining way,
Back to the world again.

But I *know* I shall see thee more, sweet land,
When these fitful hours have fled—
When the flowers lie low, where they used to blow,
And the sky in the west grows red.

I shall steer my bark, where the waves roll dark,
I shall cross a stranger sea;
But I *know* I shall land on thy bright strand,
Where my loved ones wait for me.

I shall see them stand on the gleaming sand,
Their white arms o'er the tide,
Waiting to twine their hands in mine,
When I reach the further side.

There are faces there, divinely fair,
That the earth lost long ago,
And foreheads white, where curls lay bright,
Like sunbeams over snow

And there are eyes, like thine own blue skies—
Eyes I have seen before—
That will glow as bright as the stars at night,
When I near that welcome shore.

The[re] are little feet that I used to meet,
When the world went well with me
That I *know* will bound, when the rippling sound
Of my boat, comes o'er the sea.

Sweet land! I have dreamed of thee,
When the summer moonlight fell
In silvery showers, on the nestling flowers
Asleep in the greenwood dell!

But I *know* I shall see thee once again,
When life's fitful hours have fled—
When the flowers lie low where they used to blow,
And the sky in the west is red.

A SIBERIAN SLEIGH RIDE

In Siberia, people frequently make sleigh rides three or four thousand miles long, and do not think they have done anything wonderful. One day a gentleman in Siberia told me that he was going to visit a friend who lived, as he remarked "close by here." I found on inquiry, that "close by here" was nearly four hundred miles away. At another time a lady asked me to visit a famous gold mine that belonged to the family, and was said to be the richest mine in Siberia. When I asked where it was, she said it was only six hundred miles from there, and the road was very good with the exception of the last two hundred miles. So much bad road would frighten a New Englander, but the Russians think nothing of it.

I had the pleasure of taking one of these little sleigh-rides thirty-six hundred miles long. I was in Irkutsk, the capital of Eastern Siberia, when the winter began, and I wanted to be in St. Petersburgh before the end of January. When the first snow fell, I looked about for a sleigh suitable for the journey, and found it after some difficulty. There are several kinds of sleighs used for winter travel. The one that I bought was called a Kibitka, and was the most agreeable pattern for one who did not mind a little cold wind and snow in his face occasionally, though it would not be liked by ladies or invalids. The sleigh was about six feet long, rounding a little at the sides; it was four feet wide at the rear end, and somewhat narrower at the front. The forward part was boxed in to furnish a seat for the driver, and to protect the feet of those who rode inside. At the end there was a hood or top, like that of a carriage; there was a boot of leather and quilted canvass to keep out snow rain and wind, and this boot could be buttoned to an apron that fell down from the front edge of the hood. The inside of the hood was wadded and quilted, partly to keep out the cold, and partly to break the force of the continual bumps, as the sleigh rolled and jumped around on the road.

It is very cold in Siberia, and one must wear thick clothing to keep warm. I frequently saw the thermometer forty degrees below zero, and sometimes it gets below sixty. Everything that can be frozen becomes solid We carried some soup frozen into cakes like small bricks, and we had a piece of roast beef that looked and felt like red granite. The horses used to become white in a short time, no matter what their original color was; the long hairs round their nostrils used to be covered with frost from their breath and sometimes they resembled the rows of spikes that farmerr put around the noses of weaning calves. In the coldest mornings, there is generally a fog or frost cloud resting near the earth, from the freezing and falling of all the watery particles on the atmosphere. One can always tell when it is cold by hearing the ringing sound of the runners upon the snow. It becomes dry and crisp, and when taken in the hand it feels more like sand than snow. In the coldest nights the stars are always very brilliant, and the brightest of them seem to burn like diamonds.

For my winter journey, I had a suit of clothing made from a pair of blankets. On my feet I had my ordinary woolen socks, then a pair of squirrel skin socks, then some sheep skin socks that came to the knee, and then some boots of reindeer skin reaching as high up as boots could possibly go. My leather boots I packed away in the sleigh, and had no use for them while traveling. Outside of my ordinary clothing, I had a sheep-skin coat with the fur inside, and buttoning tight around me. And outside of this I had a deer skin coat that touched the ground when I stood erect, and was large enough inside for a man and a boy. When thoroughly wrapped up I felt very much as an Egyptian mummy might be supposed to feel, after he has been laid away to cool. Then I had a sleigh robe seven feet square, made of sheep skins sewed upon a backing of heavy cloth.

The frost could not penetrate all this covering, but it constantly troubled my face. My breath congealed and used to turn my mustache into an icicle, or rather into a pair of icicles. My beard became a mass of ice, and frequently froze to my furs, so that a sudden movement threatened to tear it out by the roots. Frequently before removing my fur coat I had to thaw my beard from it, though sometimes I forgot myself and gave it a severe pull that was sure to bring me to my senses. It was no easy matter to turn over in all this heavy wrapping; and once when the sleigh was upset, it took me some time to crawl out and get on my feet. A gentleman who traveled with me rolled down a bank as if he had been a ball, and luckily was not at all hurt by so doing.

Every ten or twenty miles, there was a station where we changed horses and drivers; we made two hundred and nine changes, and had in all, at different times, more than twenty thousand horses before us. The horses travel very fast when the roads are good, especially when the weather is cold. Frequently we went ten miles an hour, and occasionally twelve or thirteen. Once I held my watch and found that we went twenty two versts, or fourteen and two thirds miles in sixty minutes. The horses were small and hardy, reminding me of the Canadian ponies that are so much used in the New England states. They are never blanketed, even in the coldest weather, and their hair was often thick and soft, like the fur of foxes or wolves. They were always driven abreast, or side by side, no matter if there were half a dozen of them. Generally we had three but sometimes when the roads were bad we had six. One horse is harnessed between the shafts, with a yoke over his neck, such as one always sees in Russian pictures, and the rest were attached on each side of him. We carried a bell attached to this yoke, to signify that we traveled under a government passport, and the rule of the country required every inferior sleigh to give us the whole road.

My sleigh ride lasted twenty five days and twenty six nights; we traveled night and day, stopping only for meals, and to change horses. I made several stoppages in the cities on the road, so that sixteen days were added to the twenty-five above mentioned. Consequently it was almost six weeks from the time I started, before I changed horses for the last time, and heard the welcome whistle of the locomotive, which told me my long journey on runners was ended.—Thos. W. Knox.

THE LOFTIEST MOUNTAIN.

Chimbozaro was long supposed to be the tallest mountain on the globe, but its supremacy has been supplanted by Mt Everest in Asia, and Aconcagua in Chili. In mountain gloom and glory, however, it still stands unrivaled. The Alps have the avalanche, the thunderbolt of snow, and the glaciers, those icy Niagaras so beautiful and grand. Here they are wanting. The monarch of the Andes sits motionless in calm serenity and unbroken silence. The silence is absolute and actually oppressive. The road from Guyaquil to Quito crosses Chimborazo at an elevation of fourteen thousand feet. Save the rush of trade wind in the afternoon, as it sweeps over the Andes, not a sound is audible; not the hum of an insect, nor the chirp of a bird, nor the roar of a puma, nor the music of running waters. Mid ocean is never so silent. You can almost hear the globe turning on its axis. There was a time when the monarch deigned to speak, and spoke with a voice of thunder, for the lava on its sides is an evidence of volcanic activity. But ever since the morning stars sang together over man's creation, Chimborazo has sat in sullen silence, satisfied to look from his crown of clouds o'er half the world.

BEECHER ON TOBACCO.

I exceedingly dislike tobacco; and I still more dislike bad tobacco; and I have been polite enough to say to men that were smoking, 'I have no objection to your smoking a decent cigar, but the smoke of a pipe that has been used for a generation, and that is filled with the worst tobacco, is a fumigation which I do not need. Yet if you will smoke such a pipe and such tobacco, I must submit.' I think that smokers are the nastiest things that God lets live on earth. When I go into the cars or boats where they are, and see what puddles they leave, I feel as though, if I had the liberty of doing by them as we do by poodles, I would take them by the neck and rub their noses in their own filth! They have what they call gent's rooms. That is right. The name ought to be cut in two. They are not gentlemen You would think, in going through a gent's car, that you were going thro' Tophet. Of all dirty holes, that is the dirtiest.

It is complained that on the boats gentlemen will not go into the gent's cabin instead of going in on the ladies side. I won't go in on the side that was intended for gents. I am a gentleman—not a gent. The filthiness the nastiness of these places, after 200 or 300 men have smoked and spit, and chewed and squirted, is beyond all belief. I pity the woman that mops up. I have thought of writing an article—and I will yet—on that very subject. The snail that goes about leaving slime in his track is a clean animal compared with one of these men who has no sense or anybody who smokes or chews his tobacco, and smells scarcely less strong than a polecat, and spits wherever he goes, and dirties the dress of every woman that comes near him (though I do not pity the woman, where they wear long dresses), and makes everybody around him uncomfortable. Such men often profess to be good Christians. Abominable follows! We examine men for membership on drinking. For my part I should like to see them examined on smoking and chewing.

BAD BLOOD.

Of bad blood, Hall's Journal of Health says:

Draymen about breweries drink quarts, if not gallons, of beer every day, and by the time they are forty five, the commonest scratch of a pin on the hand will not get well for months; if the skin is abraded or scraped off by a misstep or other accident, a running sore is sometimes established for the remainder of life; it is poor, too thick and even poisonous.

Persons have poor blood when it is observed that scratches are a long time in healing, and this should be a friendly warning to correct that condition of things, because it shows there is but little vitality, little stamina, and disease of some kind is impending especially of the typhoid fever, and recovery will be slow and doubtful, and in many cases not possible.

The first step to be taken in all cases to get rid of bad blood, is to spend a large portion of daylight out of doors in remunerative labor or agreeable employment, or in journeying on horseback being the best; this helps nature to work bad blood out of the body; and the same time gets up a good appetite and a vigorous digestion, which makes pure blood to supply the place of the bad, and the man is well, without an atom of medicine or a dollar's expense.

LOVE OF CHILDREN.

If I were to choose among all gifts and qualities that which, on the whole makes life pleasantest, I should select the love of children. No circumstance can render this world wholly a solitude to one who has this possession. It is a freemasonry. Wherever one goes, there are little brethren and sisters of the mystic tie. No diversity of race or tongue makes much difference. A smile speaks the universal language. 'If I value myself on anything, said the lonely Hawthorne, 'it is on having a smile that children love.' They are such prompt little beings too; they require so little prelude; hearts are won in two minutes, at that frank period, and so long as you are true to them they will be true to you

Dyeing for love—Coloring your moustaches to please a woman.

An Indiana paper says its hopes are gone where the mole dwelleth.

'Will you demonstrate your agility in a whirl?' is the way they ask them at Saratoga.

A punster asks whether if Titan's wife had been named Polly that fact would have her a politician.

If a man's wife has a complaint to make, her husband should give her a hearing. If that won't do, give her a pair of them.

A little boy in an infant class of a Sunday school was asked by his teacher whether he had learnt anything during the past week. "Oh yes," said he. "What have you learnt?" 'Never to trump your partner's trick,' was the reply.

A DARWINIAN ILLUSTRATION

The great scientific sensation of the hour is the Darwinian hypothesis. It maintains that all the different genera and species in the animal kingdom have proceeded from one original primordial type, and that the variations we see have been produced by the struggles of individuals to meet new emergencies, which struggles have compelled modified forms, and those forms have been transmitted, and perpetuated. Darwin has tried to demonstrate this theory. He took rabbits, pigeons, &c., and by paring such as showed slight differences, and by keeping them and successive generations of their progeny isolated, he differentiated new types—new species. Thus for example all the different varieties of pigeons have proceeded from the original rock pigeon, and the argument is, if all the strange varieties of the pigeon that the fanciers possess have been artificially produced within a few years, why may not all the higher forms of animal life been differentiated in the long procession of ages in a similar manner? Why may not the man have struggled from the mollusc or polyp without any necessity for a special creation? Did the first human pair need a creator? May not this argument be disposed of thus? The only way in which a new variety is prevented from reverting to the original form is by the fostering care of a superintending intellect. Setting aside the fact that hybrids are sterile, and therefore that crosses between species cannot establish new species in all cases man must exercise all his invention and care in guarding a new variety of horse, or fowl, or dog, or pigeon to preserve even the slight variations he is able to establish. There would be but one kind of pigeon if man did not compel the circumstances that result in the many kinds. Now if it requires the superintending intellect of man to produce, and preserve the tumbler and the fantail, and all the different kinds of pigeons, how could the manifold genera, species and varieties of animal life scattered over the globe have been produced without the special intervention of superintending intellect? Does not this illustration overthrow his own hypothesis? for it is only a hypothesis without one fact to support it.

This is our thought on laying down what is really one of the ablest and most stimulating works we have ever read.—New Covenant.

SMALL PROVERBS

Every fox praises his own tail.

Go after the wolves and you will not even catch one.

A good beginning is half of the work.

Trust in God, but do not stumble yourself.

With God even across the sea; without Him, not even to the threshold.

Without cheating, no trading.

The deeper you hide anything the sooner you find it.

A debt is adorned by paying it

Roguery is the last of trades.

Never take a crooked path while you can see a straight one.

Fear not the threats of the great, but rather the tears of the poor.

Ask a pig to dinner and he will put his feet on the table.

Diseases come in by hundred weight and goes out by ounces.

Every little frog is great in his own bog.

An old friend is worth two new ones.

Be praised not for your ancestors, but for your virtues.

When fish are rare even a crab is a fish.

To anglers—To properly bring up some fish you should not spare the rod.

A cotemporary says Eve was the first bone-apart!

'Who temped Eve?' asked a Sunday school teacher of a young scholar. The little fellow after a few moment's thought, with an air of confidence exclaimed: 'It's the gentleman who lives in hell; I've forgotten his name.'

The last subject discussed by the Virginia Debating Society was, 'If you had to have a boil, where would you rather have it?' The unanimous decision of the members was 'on some other fellow.'

In order to amuse the children a lady was engaged in reading the Bible story of Goliah and David, and coming to the passage in which Goliah so boastingly and defiantly dared the young stripling, a little chap, almost in his first trowsers, said: 'Sister, skip that—skip that; he's blowing! I want to know who licked.'

A Scotchman who had put up at an inn was asked how he had slept 'ath, mon,' he replied, 'nae very well either, but I was muckle better off than the bugs, for de'l a one o' them closed an e'e the hale nicht.'

Notwithstanding the marked changes that have taken place in public sentiment and in the drinking usages of the people, it is true beyond doubt, that intemperance is pre eminently the crime, the curse, and the shame of our nation.

Camp meetings originated in Kentucky in 1799, more than seventy years ago. They were first set on foot by the brothers McGee, one a Presbyterian and the other a Methodist, and were confined to no religious denomination. The first camp meeting in Ohio was held at Marietta, in 1805.

Emerson says, 'Every ship that comes to America, got its chart from Columbus. Every novel is a debtor to Homer. Every carpenter who shaves with a forefplane borrows his genius of some forgotten inventor. Life is girt round with a zodiac of sciences, the contributions of men who have perished to add their point of light to our sky.'

PUBLIC MEETINGS.—According to previous notice a republican meeting was held in front of the American Hotel, on last Thursday evening. R. H. Folger, Esq., was called upon to preside, who introduced J. Dunbar, Esq, of Steubenville. Mr. D. addressed a crowd of attentive listeners for some time on the leading political issues of the day, and in his remarks earnestly appealed to every republican voter to be present on election day, as it was of vital importance that the ticket should be elected. As a state senator is to be chosen to fill the vacancy made by the appointment of Gen. Potts to the governorship of Montana, it is of the utmost consequence that Mr. Wales be elected to fill his place. For without this result the democracy will have the senate, if Mr. Lee is elected; and as the legislature at the coming session has to district the state for the next decennial period, and as the selection of Mr. Wales will keep this great measure in the hands of the republicans, it makes the question of voting for him an imperative duty. The speaker especially impressed this fact upon his hearers—for if the democracy accidentally have control of districting the state we may anticipate any amount of gerrymandering, so that party may try to regain their lost power.

W. McKinley, Esq, of Canton, followed in a brief but earnest speech, in which he still further urged the necessity of every man performing his duty rightfully on election day.

Mr. Folger concluded the meeting by a few timely remarks on the great movements now in progress in Europe Some of our German friends were particularly pleased with his enthusiasm.

On Friday evening Mr. Wm. Cogswell, of Illinois, in accordance with an announcement that he would address the working men on the labor question in the Opera House, called together a considerable audience. He was introduced by the president of the evening, and after some parade in taking off his coat and appearing in his shirt sleeves, he proceeded to talk in a voluble way about the evils of labor, and uttered many universally acknowledged truths as to the dignity and indispensable necessity of labor. A portion of his audience was particularly pleased at times at his hits against non producers in the shape of professional men. But the speaker seemed ambitious not only to defend and set forth the claims of working men, but he confidently proclaimed that much if not nearly all the legislative and financial doings of the country, from Washington down to the present period, has been a series of mistakes—errors committed by those who were not democrats. His animadversions, whether designed so or not, were evidently aimed at one party, the republican—for according to his standard they are incapable of doing anything right. As an exponent of financial and government affairs Mr. C. is not regarded as a success by his hearers, although he assumed positions and made assertions with a great deal of assurance. We ought, perhaps, to assume that the orator is honest and sincere in his efforts, but when he came to make an appeal to workingmen that their interests were endangered by the introduction of Chinese labor, it sounded very much like the claptrap of the demagogue, who works on the fears and prejudices of unthinking people. But it is probably well that somebody should agitate these radical issues so as to prepare the public mind to think dispassionately and intelligently concerning them, for they are bound to come up some day for practical action. Mr. C's denunciation of the practice of granting to corporations millions of acres of the public land is, we think, all about right—he cannot condemn the practice too strongly. But he omitted to mention that it was a practice inaugurated in in 1851 by a democratic congress, when a general wish was entertained to have a railroad made in Illinois. Then millions of acres of the public's heritage was given to a railroad corporation, which has since grown fat and saucy on the gifts thus bestowed. Republicans in following such an example evidently commit an error, and the sooner they abandon it the better.

COUNTY FAIR.

More than usual preparations are making by the board of officers of the Stark County Agricultural Society to render the coming fair a success, as a larger than usual and more attractive list of premiums is offered for the various branches of industry, stock, &c. The board has very wisely decided certain trivial and useless performances, and in their stead offer inducements to such as wish to excel in literary and intellectual exercises. In addition to the legitimate agricultural productions stock, mechanical improvements, the board give the following brief summary of these new and improved features:

The Stark County Agricultural Society have made their twenty first announcement and list of premiums for for the fair to be held Tuesday, Wednesday, Thursday and Friday, September 27th, 28th, 29th and 30th, 1870. The Board of Directors have decided to dispense with mule riding, wheelbarrow-racing, pole-climbing, sack walking, tight rope performances and other similar performances. In lieu of them the Board offers liberal premiums:

To the best choir of vocal music or singing society.

To the best band of instrumental music from within or beyond the county.

To the best delivery of the best original address, to be publicly spoken on the grounds, on the subject of Commerce, Manufacturers, or Agriculture, by any youth under 20 years of age.

A like premium for the best delivery of the best recitation (publicly) on the grounds by any young lady under eighteen years of age.

A liberal premium for the best penmanship executed in the presence of a proper committee, by any young lad or lass under sixteen years of age. Also a liberal premium for the most useful invention discovered within the year, by a youth in the county under twenty years of age.

A committee has also been appointed with instructions and authority to devise additional entertainments and amusements calculated to please all and offend none, due notice of which will be given.

We hope thereby to induce all—the rich and the poor, the aged and the young, one and all—to come and enjoy themselves, and endeavor to render our days of the fair what they should be—days of honest, honorable and impartial competition for premiums, and a time of social joy and festivity.

Improved accommodations will be prepared for satisfactorily placing all articles entered; and the best of order will and must be preserved. All are cordially invited to attend

Some of our good people may feel disturbed at the idea of a political temperance ticket. Let not such be disturbed, for voting as well as preaching for a right principle will never injure a good cause. In this state the prohibitionists, those who are against drunkenness, have nominated the following state ticket to be supported by the people of Ohio at the coming election. Jay Odell, secretary of state; Thomas Edmondson, state treasurer; Gideon Stewart, judge of supreme court; Enoch G. Collins, board of public works. Of course no one is so sanguine as to expect political success for the present and for years hence, but a beginning must be made—and as the cause is founded in right it will ultimately triumph.

THE WHISKY BUSINESS is lively—at least so far as doing mischief is concerned. Another murder, the result of drunkenness, took place at or near Mansfield on the 9th inst. A young man named Hall, for some fancied offense, got into an altercation with a man named McCulloch, commenced an attack upon him, and during the fracas shot the latter through the head, resulting in death in a short time. In his mad rage Hall also shot another man through the wrist. It is said they have three or four murderers now confined in the Mansfield jail, among whom is the mysterious case of Robinson for the murder of a woman. Not much doubt but most or all of these outrages can be traced to drunkenness more or less directly. One murder a week from the same cause is the average of the whisky trade in the city of New York. Yet it is a terrible thing to say a word against all this outlawry in a public way—but somebody will speak it out.

NEW LISBON.—Ever since the era of railroads in this part of the country, this town, among the first incorporated in Ohio, has not been advancing in material prosperity as many surrounding towns have been doing. There were certain adequate causes for this, chief among which was the many hundreds of thousands of dollars lost by the citizens in the failure of the Sandy & Beaver Canal. As one result of this disaster many of the most enterprising business young men left the place, and located in Cleveland, Cincinnati, Pittsburg, Philadelphia, Chicago, New York, and other towns and cities in every direction, where many of them are now the most successful among mechanics, merchants, business and professional men. That town—in proportion to its population—has furnished quite as many leading men as any other place. Within the last year or two, however, a railroad has reached the place, and since then there are evidences of increasing prosperity. An unusual number of buildings have been erected the present year, manufactures put up, and others contemplated, while business generally is increasing. More railroad connections are in view, which are soon expected to be realities. Some 300 miners are working the richest of coal deposits, while a large number of others are taking out vast supplies of iron ore. Sanguine hopes are entertained that the Great Baltimore, Pittsburg and Continental Railroad will pass through the place, and if so another impetus will be given to a locality which combines more than the usual number of natural advantages of wealth in the shape of mineral resources.

From a recent statement in the New York Herald we observe that a general drouth, including this and the European continents has prevailed for several weeks. Only in the vicinity of the war did rains fall, and there they were very heavy. The time for an equinoxial storm has about arrived, but thus far all is quiet in this vicinity. East of us there were rains and winds a few days ago. This semi-annual visitor will not fail to give us a call soon.

The war news from Europe is just now in a state of uncertainty. The Prussians are about besieging Paris, or investing the city with that object, and some fighting is said to have taken place. Efforts are making to negotiate a peace, which it is hoped, will be successful, as quite enough slaughter has already marked the progress of the war.

It is also reported that the Italian army is about marching into Rome, if not already there, and that the pope has left the eternal city.

The election in Maine a few days ago resulted some what after the style of Vermont—all on the republican side.

Bro. Allen and his friends are to have a congressional convention in Jefferson county soon to see about the big cheat which he suffered at Wellsville some two or three weeks ago. Of course the back bone democracy won't stand such gouging.

COUNCIL PROCEEDINGS.

Wednesday Ev'g, Sept. 7, 1870.

Regular session—Members all present except Mr. Conrad.

Minutes of the three previous meetngs read and approved.

Commissioner Foltz's reports of labor were referred back to street and alley committee for further investigation.

Standing Committee on Streets and Alleys reported adverse to the passage of the ordinance, vacating a portion of Jacob Paul's addition to the city of Massillon. Laid on the table for two weeks.

Further time was granted the committee to report on the propriety of paying Exchange street.

RESOLUTIONS

By Mr. Bollinger—That the standing committee on Streets and Alleys be authorized to enter into a contract with Jos. Seiler for the grading and cindering of North street to the intersection of Plain and Third streets in the Fourth ward. Adopted.

By Mr. Ogden—That the contractor be required to give sufficient bond for the faithful performance of the work. Adopted

By the same—That the Street and Alley committee be directed to advertise for proposals for for grading and cindering Mill street from Main to South streets. Adopted

By the same—That the Mayor be instructed to notify property owners on Erie street to pave and gutter in front of their respective property, paving to be done with hard burned brick and guttering to be made with boulders. Adopted.

By Mr. Crone—That the grade be established on Centre, High, Chestnut, and Wellman streets. Adopted.

President Russell recommended the passage of an ordinance prohibiting boys from lounging about the depot and railroad yard.

Reports from the several street commissioners were as follows—

Jacob Brahm	$298,00
Peter Korman	63,50
W. Foltz	88,00
John Hewes	64,00

Orders were drawn for the following amounts—

Legal Notice.

THE STATE OF OHIO, }
The County of Stark, }

In the Court of Common Pleas

Charles W Burress, Guardian of the estate of Herman H Burress and Mary S Burress, plaintiff.

vs.

Jacob L. Bachtel, Administrator, with the will annexed of Mehitable H McClary, deceased, Caroline E Burress, Harry McNeal and Louisa M. his wife, Elizabeth Stafford and John F. Stafford, Jr, Edwin Bayliss and Richard M. Stafford defendants

The defendant, Richard M. Stafford, who resides in the city of Chicago, and state of Illinois, will take notice that on the 10th day of May, 1870, the plaintiff filed his petition in the above named court, against the defendants above named, in a certain civil action; the substance of which petition is, that by the last will and testament of said Mehitable H. McClary, the executors in her said last will named, should pay the nett proceeds of inlot numbered one hundred and eleven, and thirty feet off the west side of inlot numbered one hundred and twelve in the then village, now city of Massillon, in the county and state aforesaid, to the said defendants, Caroline E Burress, Louisa M. McNeal, and one Mary F. Stafford, during their natural lives, respectively, and that one third in fee should vest in the heirs of the body of each and either of them upon her decease; that the executors in said will named, having declined to act as said executors, the defendant, Bachtel was appointed administrator upon said estate with the will annexed, and that as said administrator without any legal authority, sold and conveyed the aforesaid premises to one John McClymonds for fifteen hundred dollars, who conveyed the same to the defendant Bayliss; by whom the same is now held. That said premises, at the time of said sale to said McClymonds were worth five thousand dollars, all of which the said Bachtel then well knew; that said Herman H. Burress was the only living heir of the body of the said defendant, Caroline E. Burress, at the time of filing said petition that the defendants Elizabeth Stafford and John F. Stafford, Jr., minors aged four years and two years respectively, were then the only living heirs of the body of said Mary F. Stafford, and that said defendant Louisa M. McNeal was then without a living heir of her body. The prayer of said petition is that said sale and conveyance to said McClymonds and said Bayliss be set aside, and possession of said premises be restored to said Bachtel as administrator for the uses in said will designated, and in case the said court finds said sale to said McClymonds and Bayliss to be valid, that said Bachtel may stand charged as such administrator with five thousand dollars, as the balance of the value of said premises, for the benefit of the legatees in said will. That on the 12th day of August, A. D. 1870, the said plaintiff filed a supplementary and amended petition in said court, in which he alleges that since the action was commenced, there has been born to Caroline E. Burress aforesaid a daughter named Mary S. Burress, and to said Mary F. Stafford a son named Richard M. Stafford, each of whom holds a vested remainder in the real estate in the petition described, under and by virtue of said last will and testament of said Mehitable H. McClary, which amended petition prays for said Mary S. Burress, the same relief as is prayed in the original petition for said Herman H Burress, and that said supplemental petition must be answered by the 8th day of October, A. D. 1870, or the same will be taken as true and confessed.

China and the United States.

BY REV. WM. SPEER, D. D,

Formerly missionary in China and to the Chinese in California.

A work of absorbing interest and full of practical information on a subject now greatly exciting the public mind.

It treats of the Chinaman at home—his history, religion, literature, arts, sciences, habits and customs; the Chinaman in America; the problem of Chinese labor, and the probable influence of Chinese immigration on our country and continent.

The press everywhere pronounce it the most timely, as well as the most deeply interesting work of the day.

700 pages. 40 full page illustrations. Elegantly bound. A chance to make money fast Send for circulars with terms and testimonials. Address, NATIONAL PUBLISHING CO., Cincinnati, O.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous taint is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface, or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Massillon, Nov. 10-332

Dissolution.

The firm heretofore existing and doing a Boot & Shoe business under the style of Wert & Ball, is this day dissolved by mutual consent. All persons indebted to said firm will please make payment to J. L. Ball, who is duly authorized to receive the same.

J B. WERT,
J. L. BALL.

Massillon, July 18, 1870.

Having purchased the entire interest of Mr J. L. Ball, in the boot and shoe business, I will continue said business at the old stand on

ERIE STREET.

Thankful for the liberal patronage received in the past, I hope the same may be continued in the future. J. B. WERT.

N. B.—I am determined to sell goods at the very

Lowest Cash Prices,

FOR CASH.

so doing I will be enabled to purchase my goods to better advantage, turn my money oftener, and give the benefit of that to my customers. J. B WERT.

Go to Humberger & Son's and see their shilling muslins, calicoes and ginghams.

Rick's is the place to buy your counterpanes. They will sell them very cheap for the next 10 days.

IMPORTANT NEWSPAPER CHANGE.—The *Hearth and Home*, a finely illustrated family journal of a high character, hitherto issued by Messrs. Pettengill, Bates & Co., has been purchased by Messrs. Orange, Judd & Co., of 245 Broadway, N. Y., the well known publishers of the *American Agriculturist*. Messrs S M. Pettengill & Co., whose great advertising agency, established in 1849, is one of the largest and most reputable in the world, find that their extensive business requires their exclusive attention, and they therefore transfer Hearth and Home to the new publishers, whose long experience and abundant facilities will enable them not only to maintain the past high character of the paper, but add materially to its value. The new publishers also announce a reduction of the terms to $3 per year. The change will not at all affect the American Agriculturist, which will continue on independently as heretofore. The illustrations and reading matter of the two journals will be entirely different. Either of the journals will be furnished from now to the end of 1871 (fifteen months) at the yearly subscription rate, viz: the Weekly Hearth and Home, at $3; the Monthly American Agriculturist, $1,50; or the two for $4.

Ladies plaid cloaking at Ricks'—the nicest thing out—go and see it.

The best shirting flannel in town for the money at Humberger & Son's.

Some months ago when Mr. Jacobs commenced renewing the building on Main street which he had previously bought of Mr. Skinner, many people criticised the plan and place for carrying out his object. Now that the house is nearly completed it rather challenges admiration, for it is so improved, and presents so fine a front that fault-finding seems to have been forgotten.

Lace collars and handkerchiefs nice assortment, real and imitation at Humberger & Son's.

Germantown yarns in all colors at Ricks'.

It is easier to find faults than to correct them. A great many thousands of letters, for instance, are put together every week, in this paper, in the shape of words, sentences, paragraphs and columns, and it is nothing strange that some of these tens of thousands of letters may get wrong. One advantage results from these blunders, if any are made, and that is, it gives the smart man, who may possibly know how to spell BAKER without making a single mistake, a chance to display his powers of criticism.

The best woolen yarn in the city for $1,00 per pound at Ricks'.

Ladies and gents underwear at Humberger & Son's.

The managers of the Stark County Agricultural Society have spared no pains to make everything pleasant and agreeable on the grounds, having been at considerable expense to have every convenience procurable. Then the premiums, which amount to $5,000, an extraordinary sum for a county fair, will induce thousands to be in attendance. So come to the fair.

The contract for grading the park is rapidly being carried forward, and the ground is assuming the shape designed by the managers. As the undertaking is a pretty heavy one it is not probable that the work will be completed the present season, for the committee will have it done right if it requires two summers to accomplish it.

A new assortment of kid gloves for $1 per pair at Ricks'.

Mrs C. P. Wilson, who has so long provided the ladies of Massillon with beautiful and varied articles of apparel, has sold out her store to those ladies in the Opera House who have been there several months carrying on the millinery business.

Shawls—a full assortment of the different styles are selling low at Ricks'.

Germantown woods and zephyrs at Humberger's.

The bell ringers at the new Lutheran (St. Paul's) church will have to take a few lessons on time before they can be considered a success. Practice will make them all right.

The meeting of the Grand Lodge of the I. O. G. T. of Ohio, will be held at Cleveland this year commencing on Wednesday, October 5th. A large number of the friends of the cause may be expected present, both as representatives and visitors, and a session of more than usual interest is anticipated, as business of great importance will come up for consideration.

Fall style prints good assortment at Humberger & Son's, from 6½ to 12½ cents.

Carpets—our entire stock will be sold at at a great reduction. All persons wanting to buy can do well by calling at Ricks'.

For some time past the friends of spiritualism of this place have been fondly anticipating a visit and lecture by Mrs. Hardinge, one of the most able and distinguished advocates of that cause now living. But we learn that it will be impossible for her to come, which is a source of sincere regret to many, who hoped to have the satisfaction of hearing an able advocate of that phase of religious movement. Mrs. H. soon expects to return to England.

Woolen yarns of the very best make, indigo color, and long reel, cheaper, than ever, all shades at Humberger's.

Table linen and crash, a full assortment at Ricks' which they are selling cheap.

The Magnet is the title of a handsomely printed paper, dated at Letonia, O., R. M. Gilbert, editor It ably and successfully sustains the claims of our old friend, Dr. S. D. Cushman, of New Lisbon, to many important improvements in the workings of the automatic fire alarm apparatus, which has been introduced in a number of cities, and is destined to supersede previous inventions having a similar object in view. Dr. C. and those co-operating with him, have been annoyed with threatened opposition, but that now seems rapidly abating. A company has been formed, having a manufactory of this apparatus at Letonia, and is successfully at work Dr Cushman is an experienced electrican, has spent some thirty years in investigating this subtle science, and deserves and we hope he may receive, abundant success.

A difficulty occurred, one day last week among several men in this vicinity—names unknown to us—which resulted in some three of them falling on one or two others and beating them terribly. The accused of this violence were arrested, brought before Esquire Warner on last Friday for trial. The case excited more than ordinary interest, for no less than four members of the bar were employed by the parties, and a cloud of witnesses were at the trial, which lasted from Friday to Saturday afternoon. The result was, the three accused were bound over to appear at the next term of court to answer for the deeds done on the bodies of those they assailed and treated so violently —on a charge of attempt to murder.

The people of Columbiana county are now having erected one of the finest court. houses in this section of the state. Having the advantage of inexhaustable quantities of the finest building stone near New Lisbon, the entire outside walls will be faced therewith while the inside is of brick, of which it takes about one million. The entire edifice is 100 feet in length and of proportionate width and height. Iron joists support the floors, so that the building will be fireproof throughout, as the roof will be of slate.

Among our numerous coal dealers we notice that Mr. Samuel Parsons announces that he is prepared to supply customers with this indispensable article.

Go to Humberger & Son's and see their nice home made flannels of the very best manufacture, and prices that will satisfy you, call and see, will be glad to show them.

The Northern Ohio Fair, which is to be held at Cleveland, commencing October 4th, promises to be a big thing. Premiums to the amount of $20,000 are offered, which indicates that there is somebody connected with the enterprise who design to carry it through successfully. Competitors from all parts of the world are invited. The prospects of this fair dont seem to have interfered with the state fair, which took place at Springfield last week, for it is represented as having been the best ever held in Ohio.

Some hungry party broke into the cellar of Mr. John E. McLain on Monday night and carried off enough cooked provision to supply immediate wants. Whoever did it were modest burglars, for they might have taken off more than they did.

We have a report that on Sunday last the body of a dead man was found at or near Navarre, lying on a sand bank. Suspicions were entertained that violence had been used upon him, but a post mortem examination developed nothing of the kind—but the man died, report says, another victim of bad whisky. There seems to be no limits to the power of this curse.

A report prevails here that a hotel keeper of Winesberg, Holmes county, cut his throat the other day—whether with fatal result or not we have not heard.

Advice to fish eaters—Deal gently with the herring.

BARN BURNED.—On last Sunday night between 9 and 10 o'clock the large barn belonging to Cyrus Young, who lives a short distance north-west of this place, was found to be on fire, and before the flames could be arrested the entire building with nearly all its contents was destroyed. It was one of the largest and best barns in this part of the country, in which were about 1000 bushels of wheat, some barley, oats, hay, straw, &c., beside several horses, agricultural implements, a new stationary steam engine valued at about $3000, and other valuable property, all of which was lost excepting a part of the farming implements. Two young horses were burned. The entire loss is estimated at from $12,000 to $14,000, about $7,000 of which was insured in different companies. All this loss was the terrible work of one or more incendiaries certainly, for the time and place, without such mischievous agency, would leave such property entirely safe. Much excitement was occasioned in our community on Monday, and if the perpetrators could have been definitely known they would have fared roughly. One man was arrested on suspicion, but on examination he was permitted to go free, as no evidence of guilt appeared against him. But somebody is guilty of the crime, and time will tell who it is. This is the third or fourth act of flagrant incendiarism in this vicinity within the last very few months: and their frequency and boldness make many of our property holders feel as though their possessions are unsafe, while unpunished villains roam at large, for there is no knowing who will be the next victims of this malign influence. It is possible some of these wicked fellows may receive doses of leaden peas if they dont behave better.

FATAL ACCIDENT.—On last Saturday as Henry Deiter, an employee at Fotz's Slope and one of most esteemed citizens of Brookfield, was engaged in coupling cars, his body was so crushed between them that he died on Sunday. His funeral was attended by relatives and a large number of sympathizing friends on Monday, the services taking place at St. John's Evengelical Church. The deceased was in the prime of life, aged about 46 years. He leaves a bereaved family and relatives to realize their loss.

DIED.—On the 18th, Mrs. WARREN, wife of E. L. Warren, of this place, aged 55 ysars.

What Does Reason Say?

The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that Hostetter's Stomach Bitters possess strengthening, regulating, and antiseptic properties which are not combined in the same happy proportions in any other medicine extant. This therefore is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional or connected with our habits, occupations and pursuits.

The venom of a noxious reptile is scarcely more subtile and dangrous than that which lurks in foul air and impure water. To escape the fevers, bilious disorders, disturbances of the bowels, and other serious maladies produced by these insalubrious elements it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robuist condition. Upon the amount of resistance which the vital organs can oppose to the deleterious influences that assail it, the safety of the health depends, and it is because the great invigorant imparts energy and regularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medicine.

If you want a nice Arab or shoulder shawl go to Humberger & Son's and buy one cheap.

Waterproofs—a large assortment of colors and styles which they are selling cheap.

MARRIED—By Rev. Wm. Lynch, at the parsonage in Salem, Sept. 15, Miss ALICE M. PUTMAN, of Wilmot, O., and Mr. CARREL B. ALEMAN, of Massillon.

The Independent,

Massillon, Ohio,

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

Manhood: How Lost, How Restored.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

Price, in a sealed envelope only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C KLINE & CO., 127 Bowery street New York. P. O. Box 4,586. 371-1y

NEW YORK CITY, March 28, 1870

Having used Dr. Whittlesey's medicine, I have no hesitation in saying that in my case it proved a decidedly efficacious remedy for dyspepsia, and with the removal of the complaint, promoted a healthy action of the digestive organs generally. I should judge from its effects, that it combined ingredients which serve both as a mild tonic and aperient, contributing to the salutary action of the liver, and the purifying of the blood. Indeed, so happy have been the results produced by this medicine in my case, that I shall certainly use it in future dyspeptic troubles in preference to any other pronounced remedy with which I am acquainted.

I. LUAVYL ODGIERS,
of England, now of
H. B. M. Consulate, New York.

368-3m

To the Nervous.

The natural result of exhustion of strength by excessive labor or actions is a feeling of weakness, dullness, heaviness, weariness, langor of body or mind, etc. Persons of a weak constitution, or whose habits are sedentary, frequently complain of this relaxed condition of the vital energies; and when persons of a nervous temperament are thus weakened and debilitated, disease inevitably follows, unless it is checked and overcome. All who suffer from these causes alike require a remedy which will strengthen the system without exciting it, and awake a feeling of true enjoyment, so that life may become a source of pleasure. Mishler's Herb Bitters has won its way into the confidence of thousands of this class of persons, who warmly endorse it as the best invigorating agent, and the most potent and genial of all tonics and alteratives for strengthening and restoring the physical constitution.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion, SECURED to ALL.

RADWAY'S

Sarsaparillian Resolvent

HAS MADE THE MOST ASTONISHING CURES. SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE THAT

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Bowels, and other parts of the Glands, and other Internal Organs, Sore Eyes, Scrofulous Discharges from the Ears, Erruptive diseases of the Eyes, Nose, Mouth, and the worst forms of Skin diseases. Eruptions, Fever sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, loss of Sperm, and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents in the cure of Scrofula, Constitutional, Skin or Syphilitic disease, it is the only positive remedy for Kidney, Bladder Urinary, and Womb Diseases, Gravel, Diabetes Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with ropy substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the Small of the Back, and along the Loins. In all these complaints, as a Sarsaparillian Resolvent, Radway's Ready Relief to the pain in the Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold and digest the Resolvent Naturally without pain, and the Urine it discharged to it's natural clear, and amber or sherry color.

THE WASTES OF THE BODY

are supplied with fresh, healthy, and vigorous Blood, that surrounds sound structure. Hence all suffering from WASTING DISCHARGES (Per MALL or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Spermatorrhœa Discharges, or every kind, or from whatever cause, Impotency, Sterility, or Venereal Diseases, or Consumptive habits, are arrested, and the ruptured organs healed.

THE TRUE THEORY OF CURE:

RADWAY'S SARSAPARILLIAN RESOLVENT supplies the system, through the blood, urine, sweat, and manufacturing constituents with Tissue making, flesh making, Heat or Caloric and Fat making elements. All constituents are *nourishing, purifying, and strengthening*—all *Impure, Heterogeneous, and diseased out of the body*—the products of Decay and Corruption CONSUMPTION, WHITE SWELLING, ERYSIPELAS, SYPHILIS, CANCERS, TUMORS, &c., are all put in solution in the sick, and as such, are within the curative range of the SARSAPARILLIAN RESOLVENT!

1 That Scrofula, by whatever name denominated, is the result of deposits from the blood, induced or caused by Chronic Inflammation. That those deposits take place when the blood is *impure, weak, watery*, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood as Mercury, Colonel Corrosive Sublimate, which is the Corrosive Chloride of, Mercury &c. &c., given in medicines and which enters in only in the common allopathic and Sarsaparillas, NOT ASSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2 That unless the receivers of nutriments are greater than the waste, that decomposition and decay will supervene, and the powers of life become exhausted.

3. That the dying body cannot be sustained on any nutriment or medication that exhausts the system, or rots by its use, the blood, the only medium through which these nutrients are preserved, and on which the growth of the body depends.

4. That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine, the only new found principle in Chemical science, which has been brought to such a perfect system of cure is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, as chyle and cyle with the nourishing elements of blood, separating from these humors refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition, separates every atom of refuse and foreign matter, out of which the germs of disease is formed.

2. That, the blood thus prepared, and supplied with these nourishing properties becomes strong, rich and healthy, and holds in solution its proper constituents, through the **Sarsaparillian Resolvent**, and repairs the wastes of the body with sound and healthy structures. Such is the wonderful power of the **Sarsaparillian Resolvent** exerts on the blood, and juices of the system, that no virulent humors or poisons will exist by which deposits are made.

3. The rapidity which the **Sarsaparillian** enters the circulation and communicates its curative powers through the Blood, Sweat, Urine, and other fluids, secures the constituent operations of each respective organ, establishing functional harmony throughout the system; through its action and power over the Secretions, the Liver secretes its natural or proper allotment of bile; the Skin sweats the kidneys urea; and the lungs carbon; so that this wonderful medicine not only establishes health in the sick body, but preserves the system in health.

As we have shown the principle on which disease is formed, as well as the only sensible theory of cure, we claim that the range of cure of the **Sarsaparillian Resolvent** is unlimited, and that every disease that is of a Constitutional, Scrofulous or Organic Diseases, is, properly within its special range.

THE GREAT SECRET OF CURE

in this Medicine consists in the selection of ingredients containing curative and nourishing properties that supply the blood and general system with such constituents which, in a condition of disease and depravity, it is deficient of, together with the combination of the several ingredients that form the SARSAPARILLIAN RESOLVENT.

If the constituent of Oxygen was exhausted from the atmospheric air, life would become extinct. So, when the blood becomes exhausted of its vital constituents, it deposits its tubercles and diseased humors in the body, and the elements of decay and decomposition supervene.

Radway's Sarsaparillian Resolvent is to the blood and general system what OXYGEN is to the atmospheric air; it supplies the life principle, and enables the blood to hold in solution all its natural constituents.

DAILY CHANGES

take place, for as the Sarsaparillian increases, the strength and purity of the blood, all deposits are diminished, and where there are tubercles formed in the lungs, no further deposits are arrested, and those that are established or forming dislodged, expelled, exhausted, or the portion of the diseased lung cicatrized, and the consumptive, scrofulous subject receives good, if not sound, health.

BLIND LADY CURED.

Gravel, Dyspepsia, Sore Legs, Bleeding from the Lungs, Cured.

Mr. GEORGE MORTIMER, a commercial traveller, in Canada West, writes us, under date of April 17, 1869, from Woodstock:

"The SARSAPARILLIAN RESOLVENT is in great demand, and working wonders. Mr. HOAG, of Strathordsville, merchant, told me of a case where a woman WAS BLIND, but, by the use of the SARSAPARILLIAN RESOLVENT, can now see to read. She would give a certificate, but does not wish to be bothered with people writing. Hundreds call to see her. The cure is regarded as wonderful.

"Messrs. WHITE & SCOTT, principal druggists here, inform me of a person of note—high social standing—who for years was afflicted with DYSPEPSIA and GRAVEL, who has been entirely cured by RADWAY'S SARSAPARILLIAN RESOLVENT."

Mr. HOAG reports another case of Chronic Sore Leg, that resisted all other advertised medicine, cured by a few bottles of SARSAPARILLIAN RESOLVENT.

"Mr. JONATHAN FREELAND, of Widder Station, cured, by one bottle, of Bleeding from the Lungs, Night Sweats, Threatened Consumption.

"In every town I visit I hear of wonderful cures by the SARSAPARILLIAN RESOLVENT. For every kind of Humor, Sore, Skin Eruption, and all weakening discharges, the people use it, and become cured; so with Fits, Scrofula, White Swelling, Sore Heads and Eyes, Nose and Mouth, all kinds of Sores, this wonderful remedy acts so powerfully on the blood that all who take it become strong, sound, and healthy.

"GEO. G. MORTIMER.
"Commercial Traveller."

RADWAY'S SARSAPARILLIAN RESOLVENT is sold at $1 per Bottle, or 6 Bottles for $5, by all Druggists and Medicine Dealers, and at DR. RADWAY'S Medicine Warehouse, 87 Maiden Lane, New York City.

C. F. GALTON'S

DYSPEPSIA REMEDY.

In offering this remedy to the public, we feel confident that every statement we make in regard to its curative properties will be fully verified by all who avail themselves of it. The present season has been specially unfavorable to dyspepsia, and we never failed to effect a permanent cure when we used in accordance with the directions, and the patient's full strength of mind to abstain from rich and indigestible food for a short time In cases of *Orthopnea, Bad Breath, Constipation*, and *Nervous Headache*, at once, from any cause of digestion, and all ailments which are produced from an abuse of that important organ, the stomach, it will afford permanent relief.

As an evidence that our statements can be fully relied upon, we refer the reader to the certificates below:

"For a number of years I was greatly afflicted with Dyspepsia, and although my stomach craved food, it would immediately reject it, should I eat anything, no matter how small the quantity I was frequently compelled to leave the table without tasting it to take a walk for nourishment. In a short time I became very much reduced in flesh, and was so weak that I was unable and unfit to attend to my business My mind was in no better condition than my body, as I was continually oppressed with lassitude and depression of spirits. I tried all the patent medicines and prescriptions that I heard of, and some of these afforded me temporary relief, but in a short time I relapsed into my former condition.

"While suffering in this manner I heard of C. F. Galton's Dyspepsia Remedy, and continued to try it. I had taken it but a short time when I began to feel relief, and continuing to take it, I soon could partake of my meals without any disagreeable feeling either before the table or afterwards, and gained flesh rapidly. It is now nearly two years since, and I have continued free from any thing like a return of the Dyspepsia—I can therefore recommend it to any one suffering in like manner.

"Respectfully yours, ANDREW J. NICHOLSON
"PITTSBURGH, March 2, 1869."

"This is to certify, that during the early part of the summer of 1868 my wife was much troubled with Dyspepsia. She had a severe pain in her side, her appetite was variable, and she became quite sallow. After having used two bottles of C. F. Galton's Dyspepsia Remedy, her appetite became good, she was relieved from the severe pain in her side, and her complexion became good again, all of which I attribute to the use of C. F. Galton's Dyspepsia Remedy, and I have to recommended it to all my friends and acquaintances. All that I can do to make its worthy qualities known, you can rest assured will be done. JAMES A. SMITH.
"PITTSBURGH, PA."

If you are suffering do not hesitate to buy a bottle of *C. F. Galton's Dyspepsia Remedy*, and test yourself of its curative properties.

DYSPEPSIA.

THE

Medical Properties Possessed by

BELTZHOOVER'S

Dyspeptic Bitters

Are fully attested by the certificates of well known gentlemen who have tested their virtues. Dyspepsia, Liver Complaint, Ague, General debility, and similar diseases are totally eradicated from the system by their use, while as a blood purifier and appetizer, they are unapproachable.

Doctor S. Beltzhoover, the sole proprietor of these bitters, are manufacturing them extensively at their establishment, No 77 Third avenue, Pittsburgh, and are prepared to fill all orders that may be sent to them.

At this season of the year the human system is generally in a debilitated condition and a tonic is necessary for the possession of health. The Dyspeptic bitters are strongly recommended for their tonical virtues, and many persons are deriving great benefit from their use. These bitters are the best in the market, and are being generally adopted by our citizens.

And for sale at wholesale by Harris & Ewing, Druggists, No. 341, Liberty street Pittsburgh, Pa.

HALL'S

VEGETABLE SICILIAN

HAIR RENEWER

RESTORES GRAY HAIR TO ITS ORIGINAL COLOR, PROMOTES ITS GROWTH, AND IS A SPLENDID DRESSING. TRY ONE BOTTLE AND THICKEN UP THE THIN LOCKS.

Is the only perfected and scientifically prepared preparation of its kind ever offered to the public, and has no competitor in *merit*. By its use GRAY HAIR is soon restored to its original youthful color and brilliancy, which is so much admired by all. Persons whose hair is thin or falling out will, by the use of our Renewer, soon see its good effects, as, by its *tonic* and stimulating properties the hair glands will be incited and the hair grow thick and strong again. In cases of *Baldness* it will create a new growth unless the follicles are destroyed. It is cooling, and allays all itching and irritation of the scalp. It does not stain the skin as do dyes, but makes the scalp white and clean. As a DRESSING it is the best and most economical preparation in the world, as its effects last so much longer. Send for our Treatise on the hair, free to all, by mail.

Sold by all Druggists and Dealers in Medicine.

Price one Dollar Per Bottle.

LABORATORY, NASHUA, N. H.

Dr. J. LONG.

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Disease

Office on Main street, four doors east of the American Hotel.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and can not be deceived. If he cannot tell what disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of any ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your case sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

JAMES LONG, M. D.,
Massillon, Ohio

Ordinance No. 172.

An Ordinance to amend sections sixteen, seventeen, and eighteen of ordinance numbered 139 entitled An Ordinance prescribing the duties of street commissioner of the city of Massillon and repealing ordinance No. 161, entitled an ordinance to amend sundry sections of ordinance No. 139, entitled an ordinance prescribing the duties of the street commissioner of the city of Massillon.

Sec. 1. Be it ordained by the city of Massillon, That section sixteen of Ordinance No. 139 entitled, An ordinance prescribing the duties of street commissioner be so amended as to read as follows:

Sec. 16. That it shall be the duty of the street commissioner, and all other persons in any manner charged with the supervision, control or management of the streets and alleys, roads and highways in said city, or in any territory annexed thereto for road purposes, to keep a vigilant watch on the same, and over the sidewalks, public squares and commons therein, and when any obstructions shall be placed or thrown thereon that will incommode the public in the use of said streets, sidewalks, public squares, commons, roads, or highways, said street commissioner, supervisor, or other person so charged as aforesaid, shall forthwith notify the person or persons responsible for said obstruction to remove the same without delay; and if such person or persons so notified as aforesaid, shall neglect or refuse to comply with the order of the street commissioner or other person having charge of the streets, alleys, sidewalks, roads, highways, public squares or commons, within a reasonable time by removing said obstructions; it shall be the duty of either of said officers to remove the same at the cost of the person or persons so obstructing the same as aforesaid. And said street commissioner and all other person having care, control or supervision as aforesaid, shall also notify any and all persons depositing any filth, carcase of dead animal or dead animals, or substance of any kind or description, calculated to offend, annoy or disturbe the public, or any individual person, in the use of any street, alley, road or highway, sidewalk, public grounds, commons, or elsewhere within the limits of said city, and upon the surface of the earth to remove the same; and upon his, her, or their refusal to comply forthwith with said notice, said street commissioner or other persons as aforesaid shall remove the same, and commence an action against all persons liable, to recover the costs of said removal; which action may be commenced before the mayor or other officer having jurisdiction. The said street commissioner or other person so charged as aforesaid, shall abate all nuisances on the streets, alleys, roads, sidewalks, highways, public squares, public grounds or elsewhere in said city, after having given to the parties liable for the existence of said nuisance, and provided said notice shall not have been forthwith complied with, he shall forthwith commence an action against all the parties so liable as aforesaid, as in other cases. He said street commissioner, shall, as shall all other persons having charge of the streets and alleys, roads highways, sidewalks, public squares, public grounds or commons, or elsewhere, within said city, see that all ordinances requiring paving of streets alleys, and gutters, are enforced according to the true intent and meaning thereof. They shall report to each and every meeting of the council the number of persons in his or their employ, the number of carts employed on the public roads of the city, the names and number of the persons who have worked out their two day's labor on the streets and alleys, roads and highways of the city, the number and names of those who have paid money by the way of commutation for said two days labor; the number and names of those who refuse to labor or pay money and the number and names of those who are exempt by law from the payment of money or the performance of labor, residing within the city and generally and particularly to have and to exercise all necessary supervision or control, over all streets alleys, roads, highways, gutters, sewers, public squares, public grounds not conveyed into parks and not under the control of the park commissioners, which supervision and control shall extend to all repairs, and shall extend over all other places in said city, for the purpose of promoting the health thereof, subject only to the control of the standing committee of the city council on roads and highways.

Sec. 2 That section 17 of said ordinance be so amended as to read as follows:

Sec. 17. That so much of ordinances numbered 11, 13, 15, 20, 22, 23, 25, 26, 35, 45, 46, 47, 50, 106, 107, passed by the Incorporated Village of Massillon, as relate to the duty of the street commissioner, and the whole of ordinance No. 161 passed by the city of Massillon be and the same are hereby repealed.

Sec. 3. That section 18 of said ordinance be so amended as to read as follows:

Sec. 18 That this ordinance shall take effect and be in force from and after its passage and ten days after its first publication

Passed August 17, 1870.

GEO. L. RUSSELL Prest

Attest—D. W. HUNTSMAN, City Clerk.

Ordinance.

An Ordinance fixing permanently the grade of Muskingum street.

Sec. 1. Be it ordained by the city of Massillon, That the grade of Muskingum street from Main street to the center of South st, shall be as follows: Commencing at the center of the intersection of Main and Muskingum streets, which point of intersection is one hundred and eighty-nine feet above the datum line of city levels, and running thence southerly along the center line of Muskingum street six hundred and seventy-five feet from the place of beginning; which point is one hundred and eighty-six feet above said datum line, thence southerly on said center line of said Muskingum street to a point in the center of South street, which point is one hundred and eighty-five feet above said datum line.

Sec. 2 That this ordinance shall take effect and be in force from and after its passage and ten days after its first publication.

Passed August 17, 1870.

GEO. L. RUSSELL, Prest.

Attest—D. W. HUNTSMAN, City Clerk.

Ordinance.

An Ordinance describing the mode and manner in which the ordinances of this city shall be designated.

Sec. 1. Be it ordained by the city of Massillon that all ordinances now in force or which shall be hereafter enacted, shall be designated by their titles only, which title shall be clearly expressed, and that no ordinance shall contain more than one subject.

Sec. 2. That this ordinance shall take effect and be in force from and after its passage and ten days after its first publication.

Passed August 17, 1870.

GEO. L. RUSSELL, Prest.

Attest—D. W. HUNTSMAN, City Clerk.

NOTICE.

To all those who have been in the habit of opening the lock gates, or paddles to same, of the canal locks near this city, I would notify that to do this for any other purpose than for the passage of boats, without a permit, is in direct violation of the law, and will not longer be permitted without putting the law in force. Therefore I suggest to parents to look to their boys, lest some of them be found guilty, and let the men take care of themselves.

R. H. NUGEN.

Massillon August 22d, 1870.—378-4w

C. F. GALTON'S DYSPEPSIA REMEDY.

In offering this remedy to the public, we feel confident that every statement we make in regard to its curative properties will be fully verified by all who avail themselves of it. The prescription has been used in this city nearly ten years, and has never failed to effect a permanent cure whenever used in accordance with the directions, and the patient has had sufficient strength of mind to abstain from rich and indigestible food for a short time. In cases of *Heartburn, Waterbrash, Constipation*, and *Nervous Headache*, arising from imperfect digestion, and all ailments which are produced from an abuse of that important organ, the stomach, it will afford permanent relief.

As an evidence that our statements can be fully relied upon, we refer the reader to the certificates below:

"For a number of years I was greatly afflicted with Dyspepsia, and although my stomach craved food, it would immediately reject it, should I eat anything, no matter how small the quantity. I was frequently compelled to leave the table without being able to take any nourishment. In a short time I became very much reduced in flesh, and was so weak that I was unable and unfit to attend to my business. My mind was in no better condition than my body, as I was continually oppressed with insanitude and depression of spirits. I tried all the patent medicines and prescriptions that I heard of, and some of these afforded me temporary relief, but in a short time I relapsed into my former condition.

"While suffering in this manner I heard of C. F. Galton's Dyspepsia Remedy, and concluded to try it. I had taken it but a short time when I began to feel relief, and continuing to take it, I soon could partake of my meals without any disagreeable feeling either while at the table or afterwards, and gained flesh rapid. It is now nearly ten years since, and I have continued free from anything like a return of the Dyspepsia—I can therefore recommend it to any one suffering in like manner.

"Respectfully yours, ANDREW J. NICHOLSON.
"PITTSBURGH, March 20, 1869."

"This is to certify, that during the early part of the summer of 1868 my wife was much troubled with Dyspepsia. She had a severe pain in her side, her appetite was variable, and she became quite sallow. After having used two bottles of C. F. Galton's Dyspepsia Remedy, her appetite became good, she was relieved from the severe pain in her side, and her complexion became good again, all of which I attribute to the use of C. F. Galton's Dyspepsia Remedy, and I have recommended it to all my friends and acquaintances. All that I can do to make its wonderful properties known, you can rest assured will be done. JAMES A. SMITH.

O. G. MADISON'S LIVERY

AND SALE STABLE,

American Stable, Massillon, Ohio.

Bus Lines from all Trains to any part of the City.

Good teams and carriages always in readiness

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m to 8 p. m. Sundays 12 m, to 2 p. m. Office, No. 9 Wylie street, (near the court house,) Pittsburg, Pa. 365-1y

MRS. S. A. ALLEN

MRS. ALLEN'S

Hair Restorer & Zylobalsamum

Are so uniformly grateful and beneficial, that they are with justice called the natural strengtheners of the human hair. They are two entirely separate and distinct preparations, not to be used together at one time.

Mrs. Allen's Hair Restorer

Never fails to satisfy the most refined and cultivated. A guarantee goes with every bottle, that it will quickly restore gray or white hair to its original youthful beauty, gloss and color; after its use a few times the hair will grow thicker and stronger. It will stop its falling and induce a healthy and luxuriant growth. It is an exquisite hair dressing, agreeable, harmless and healthy. Entirely different from most other preparations for the hair, its composition and ingredients are nourishing, giving life and vigor to the Roots.

Mrs. Allen's Zylobalsamum

This exquisite preparation is free from any sediment, and is a toilet treasure. The urgent want of a simple Hair Dressing, for the youth of both sexes, first induced the manufacture of the Zylobalsamum, and the sale of it is perfectly immense, not only in this country, but in Europe.

EXTRACTS FROM A FEW LETTERS.

"Your Zylobalsamum is used by every member, young and old, of our family, and we consider it invaluable. Should any gray hairs appear, we shall try your Hair Restorer, which we hear very highly spoken of."

"Father and mother use your Hair Restorer, and are delighted with it. It soon restored their gray locks to their youthful color, but daughters and son still find in the Zylobalsamum all their hair required."

From the Principal of one of our large Female Seminaries: "Your Zylobalsamum has been used for many years by myself and family, and is the favorite among our young ladies."

Sold by all Druggists. Wholesale Depot, S. R. VAN DUZER & CO., 35 Barclay St. and 40 Park Place, New-York.

NORTH OF THE CANAL BRIDGE,
MASSILLON, O.

Massillon July 24th 1867.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

This is the most thorough blood purifier yet discovered, and cures all humors from the worst scrofula to a common eruption. Pimples and blotches on the face, and a rough or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cures salt rheum, erysipelas, scald head, ring worms, boils, scaly eruptions of the skin, scrofula sores, ulcers, and canker in the mouth and stomach. It is a pure medicinal extract of native roots and plants, combining in harmony nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions of fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent headache, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from torpid liver or biliousness. In many cases of liver complaint only a part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of habitual constipation of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In bronchial, throat and lung diseases, it has produced many truly remarkable cures, where other medicines had failed. Sold by druggists at $1 per bottle. Prepared at the Chemical Laboratory of R. V. PIERCE, M. D. Buffalo, N. Y. 65-3m
